

Summer Shoots 2019

Members to be emailed by the organiser the weekend before with full details.

Shoots are fun and provide plenty of real photographic challenge as well as a chance to try new things – see how other members tackle the same challenge and learn from them (how to or perhaps how not to do it). Compare and share photoshoot images with other members and the wider community by using the “Kendal Photo Club – Photoshoots” Group, which is on Facebook. It’s fun and if you’ve not joined the group yet, just go on the group and ask to join.

Most of these shoots include the golden hour, sunset and the blue hour, so there’s plenty of interesting light situations and tricky exposures. Torches and/or flash should be brought if possible as well as tripod or bean bag for longer exposures. Bad weather, puddles, moody skies etc, can often make the best images, so we’ll only be cancelling a shoot if it’s really bad weather. The programme may be subject to change but we will advise you by email of any changes.

Wed 8 th May	Back Again in Kendal - Gavin
Wed 22 nd May	Evening in Ambleside - Jeff
